	Vaje / Tutorial: SLOVENSKI / SLOVENE

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:

Ni pogojev.	None
-------------	------

Vsebina:

- Načrtovanje in realizacija projekta v sistemih nacionalne varnosti
- Pregled aktivnosti MO RS na področju mednarodnega sodelovanja
- Mednarodne varnostne organizacije in njihove naloge (OVSE, Organizacija in struktura zveze Nato,
- Organiziranost in obveznosti EU na vojaškem področju)
- Strateški koncept zveze NATO in pravni vidiki delovanja v operacijah za podporo miru
- Koncept CJTF in vaja operativnega načrtovanja
- Osnove teorije uspešnosti in učinkovitosti OS, kazalniki kakovosti (MTBF, MDT, MTTR, MTTF idr.) in učinkovitosti oborožitvenih sistemov
- Etape, faze razvoja ter zadnji dosežki na področju posameznih vrst sodobnih oborožitvenih sistemov
- Opredelitev pojma in funkcije interne uprave v javni upravi
- Definiranje uprave in procesov upravljanja za zagotavljanje javnih potreb,
- Logistični procesi v javni upravi

Prerequisites:

- Content (Syllabus outline):
- Planning and realization of the project in the national security systems
 - Survey of RS Ministry of Defence activities in the field of international cooperation
 - International security organizations and their tasks (OSCE, Organization and structure of NATO)
 - Organization and obligations of EU in the military field
 - Strategic concept of NATO and legal aspects of participating in peace support operations
 - CJTF concept and an exercise of operational planning
 - Basics of the theory of performance and efficiency of the defence system, quality indicators (MTBF, MDT, MTTR, MTTF, etc.) and of efficiency of armament systems
 - Stages, phases of development and the latest achievements in the area of individual kinds of contemporary armament systems
 - Definition and the function of internal administration of public administration
 - Definition of administration and management

<ul style="list-style-type: none"> • Tehnike in metode načrtovanja in spremljanja delovanja podpornih funkcij v javni upravi • Vloga in položaj javne uprave v sodobni družbi • Odnos organizacij javne uprave do drugih družbenih subjektov • Nadzorstvo nad izvajanjem logističnih procesov in funkcij. • Pojem družbenega nadzora, mehanizmi in instrumenti notranjega in zunanjega nadzora, pravni in drugi učinki opravljenega nadzora • Zagotavljanje javnosti: pojem javnosti, oblike in načini komuniciranja z javnostmi, vplivi javnosti na kakovost dela v javni upravi 	<ul style="list-style-type: none"> procedures for securing public needs • Logistics processes in public administration • Techniques and methods of planning and controlling the operations of support functions in public administration • The role and position of public administration in modern society • The relation of organizations of public administration towards other social subjects • Control over implementation of logistics processes and functions • Definition of social control, mechanisms and instruments of internal and external control, legal and other effects of control • Provision of the general public: definition of public, forms and ways of communication to the public, impact of the general public on the quality of work in public administration

Cilji in kompetence:

Študenti:

- osvojijo načela delovanja sistema nacionalne varnosti
- poznajo možnosti delovanja sistemov nacionalne varnosti
- pridobijo strokovna znanja o zvezi NATO, organiziranostjo Evropske unije na vojaškem področju ter o sodelovanju NATO-EU na vojaškem področju
- pridobijo strokovna znanja o strateškem konceptu zveze NATO, konceptu CJTF in o sistemu opredeljevanja ter načrtovanja nalog skladno s konceptom CJTF
- pridobijo znanja o osnovnih značilnosti novih generacij oborožitvenih sistemov in opreme ter se seznanijo z načrtovanjem in postopki opremljanja ter uvajanja le teh v oborožene sile
- poznaajo družbene mehanizme za zagotavljanje javnih dobrin
- poznaajo upravljavске in podporne funkcije v sferi državne in paradržavne uprave ter v tistih subjektih

Objectives and competences:

Students:

- understand the principles of the national security system operation
- know possibilities of operations of the national security systems
- acquire professional knowledge on NATO, organization of EU in the field of military activities and on NATO-EU cooperation in the military field
- acquire expert knowledge on the strategic concept of NATO, on CJTF concept and on the system of task defining and planning in accordance with the CJTF concept
- acquire knowledge on the basic characteristics of the new generations of the armament systems and equipment and get acquainted with the planning and procedures of armament and introduction of these in the armed forces
- know the social mechanisms for the provision of public goods
- know the management and support functions in the state and parastate administrative sphere as well as

<p>zasebnega prava, ki so v partnerskem odnosu z državo ali lokalno skupnostjo pri zagotavljanju javnih dobrin</p>	<p>in those aspects of private law that are in a partnership with the state or the local community, when it comes to public goods provision</p>
--	---

Predvideni študijski rezultati:

Znanje in razumevanje:

- študenti osvojijo načela delovanja logistike v sistemu nacionalne varnosti ter osnovana znanja o zvezi NATO in organiziranosti EU
- študenti poznajo in razumejo mehanizme, instrumente, organizacijo in delovanje javne uprave

Prenesljive/ključne spretnosti in drugi atributi:

- sposobnost uporabe znanja v praksi
- sposobnost generiranja novih idej
- sposobnost prilagajanja novim razmeram
- etična zavezanost
- sposobnost kritične presoje različnih situacij
- sposobnost vodenja logističnih podjetij
- sposobnost uporabe znanj v javni upravi

Intended learning outcomes:

Knowledge and Understanding:

- students understand the principles of logistics operations in the national security systems and get the basic knowledge on NATO and the EU structure
- students understand the mechanisms, instruments, organization and operation of public administration

Transferable/Key Skills and other attributes:

- ability to apply theoretical knowledge in practice
- ability to generate new ideas
- ability to adapt to new circumstances
- ethical commitment
- ability to critically evaluate different situations
- ability to manage logistics companies
- ability to use the acquired knowledge in public administration

Metode poučevanja in učenja:

Predavanja: pri predavanjih študent spozna teoretične vsebine predmeta. Del predavanj se izvaja na klasični način v predavalnici, del pa v obliki e-predavanj (v ta namen didaktično pripravljenih e-gradiv v virtualnem elektronskem učnem okolju).

Vaje: pri vajah študent utrdi teoretično znanje in spozna aplikativne možnosti. Del vaj se izvaja na klasični način v predavalnici, del v obliki e-predavanj (v ta namen didaktično pripravljenih e-gradiv v virtualnem elektronskem učnem okolju), del pa na terenu (obisk inštitucij).

Learning and teaching methods:

Lectures: Students understand the theoretical frameworks of the course. Part of the lecture course is held in standard classroom while the rest is in the form of e-learning (with the help of specially designed e-material in a virtual electronic learning environment).

Tutorials: Students enhance their theoretical knowledge and are able to apply it. Part of the tutorial is held in standard classroom while the rest is in the form of e-learning (with the help of specially designed e-material in a virtual electronic learning environment), and part of it on the field (institutions visits).

Delež (v %) /

Weight (in %)

Assessment:

Načini ocenjevanja:			
Pisni izpit	50	Written exam	
Ustni izpit	50	Oral exam
