

UČNI NAČRT PREDMETA/COURSE SYLLABUS

Predmet:	TEMELJI LOGISTIKE IN OSKRBOVALNIH VERIG
Course title:	FUNDAMENTALS OF LOGISTICS AND SUPPLY CHAINS

Študijski program in stopnja Study programme and level	Študijska smer Study field	Letnik Academic year	Semester Semester
LOGISTIKA SISTEMOV 1.stopnja		1.	1.
SYSTEM LOGISTICS 1 st degree		1.	1.

Vrsta predmeta / Course type OBVEZNI

Univerzitetna koda predmeta / University course code: UN

Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje Laboratory work	Druge oblike študija Field work	Samost. delo Individ. work	ECTS
24 a-P 6 e-P					60	3

Nosilec predmeta / Lecturer: BORUT JEREB

Jeziki / Predavanja / Lectures: SLOVENSKI / SLOVENE
 Languages: Vaje / Tutorial: SLOVENSKI / SLOVENE

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti: None.
Ni pogojev.

Vsebina:	Content (Syllabus outline):
<ul style="list-style-type: none"> • Logistika iz zgodovinske perspektive • Koncepti in načela logistike in oskrbovalnih verig • Pomen logistike in sistemski vidik • Logistika kot proces • Logistični cikel: aktivnosti logističnega sistema (ključne in podporne) • Vodenje logistike • Povezava med logistiko in oskrbovalnimi verigami • Koncept stalnih izboljšav • Nastajajoči trendi v logistiki (integrirana logistika, vitka logistika,...) • Logistika storitvenih dejavnosti (bolnice, vojska, turizem, humanitarna logistika, logistika v športu.....) 	<ul style="list-style-type: none"> • Logistics from a historical perspective • Concepts and principals of logistics and supply chain • The importance of logistics and a systemic view • Logistics as a process • The logistics cycle: activities in a logistics system (key and supporting) • Managing logistics • The relation between logistics and supply chains • The concept of continuous improvement • Emerging trends in logistics (integrated logistics, lean logistics...) • Service logistics (hospitals, military, tourism, humanitarian, sports...)

Temeljna literatura in viri / Readings:

E-gradivo predmeta.
 Kramar, U. (2014) *Osnove logistike : skripta za predmet*. 1. izd. Celje: Fakulteta za logistiko.

Izbrana poglavja iz/Some Chapters from:
 Orbanič, J. in Rosi, B. (2017). *Razvoj transporta, logistike in mobilnosti v Sloveniji*. Celje: Fakulteta za logistiko Univerze v Mariboru.
 Rushton, A., Croucher, P. and Baker, P. (2010). *The Handbook of Logistics and Distribution Management 4th ed.* London: Kogan Page Limited.
 Waters, D. (2003). *Logistics: An Introduction to Supply Chain Management*. Palgrave.

Ballou, R.H. (2004). *Business logistics/supply chain management*. Prentice- Hall Inc.
 Rosi, B. (2008). *Osnove teorije sistemov*. Celje: Fakulteta za logistiko UM.
 Wood, D. F., Barone, A. P., Murphy, P. R. Warslow, D. L. (2002). *International Logistics*. New York : AMACOM.

Cilji in kompetence:

Študenti:

- spoznajo logistiko in oskrbovalne verige ter njun razvoj iz različnih vidikov,
- spoznajo in razumejo pomen logistike v okviru sistemskega vidika,
- Spoznajo in razumejo logistiko kot proces,
- spoznajo vodenje logistike in aktivnosti logistike,
- razumejo koncept stalnih izboljšav,
- spoznajo trende v logistiki,
- seznanijo se z logistiko v storitvenih dejavnostih.

Objectives and competences:

Students will:

- get to know logistics and supply chain and their development from different viewpoints,
- get to know and understand the importance of logistics in the frame of the systemic view,
- get to know the logistics as a process,
- get to know logistics management and logistics activities,
- understand the concept of continuous improvement,
- get to know logistics trends,
- get to know service logistics.

Predvideni študijski rezultati:

Znanje in razumevanje:

- poznavanje logističnega sistema in podsistemov,
- pomena analiziranja, strukturiranja in obvladovanja logističnih procesov,
- poznavanje osnovnih konceptov logistične verige,
- povezovanje različnih znanj ter pomena uporabe strokovne literature za reševanje logističnih problemov.

Prenesljive/ključne spretnosti in drugi atributi:

- študenti se usposobijo za uporabo teoretičnega znanja v poslovnih primerih.

Intended learning outcomes:

Knowledge and understanding:

- of the logistics system and sub-systems,
- of the importance of analyzing, structuring and managing of logistics processes,
- of basic concepts of the logistics chain,
- of connecting different knowledge and the importance of professional literature for solving logistics problems.

Transferable/Key Skills and other attributes:

- students are trained in the use of theoretical knowledge in the practical environment.

Metode poučevanja in učenja:

Predavanja: pri predavanjih študent spozna teoretične vsebine predmeta. Del predavanj se izvaja na klasični način v predavalnici, del pa v obliki e-predavanj (e-predavanja se lahko izvajajo s pomočjo posebej v ta namen didaktično pripravljenih e-gradiv v virtualnem elektronskem učnem okolju).

Learning and teaching methods:

Lectures: Students understand the theoretical frameworks of the course. Part of the lecture course is in a classroom, part of it in the form of e-learning (e-lectures may be with the help of specially designed e-materials in a virtual electronic learning environment).

Načini ocenjevanja:

Delež (v %) /
Weight (in %)

Assessment:

<ul style="list-style-type: none"> ▪ Opravljene obveznosti e-predavanj so pogoj za pristop k izpitu. 	20%	<ul style="list-style-type: none"> ▪ Successful completion of e-lectures is a prerequisite for entering the exam.
<ul style="list-style-type: none"> ▪ Pisni izpit. 	60%	<ul style="list-style-type: none"> ▪ Written examination.
<ul style="list-style-type: none"> ▪ Vaje in/ali seminarske naloge. 	20%	<ul style="list-style-type: none"> ▪ Exercise or seminar work.
