Button, K. Transport economics, USA, 2010.

Blauwens, G., De Baere, P., Van de Voorde, E. Transport economics, Antwerpen, 2010.

Sternad, M., Hočvar, M. (2021). Stroškovna analiza in model lastne cene cestnega tovornega prometa.

Obrtno-podjetniška zbornica Slovenije.

Cilji in kompetence:

Cilji predmeta so:

- spoznati in razumeti pomen transportne ekonomike v logistiki;
- razumeti povezavo med ekonomijo in transportom;
- izračunati stroške transportnih poti v različnih transportnih sistemih;
- razumeti osnovne kazalnice poslovne uspešnosti in učinkovitosti transportnih podjetij.

Kompetence, ki jih pridobijo študenti:

- spoznajo in razumejo področja transportne ekonomike;
- spoznajo in razumejo prometno politiko in vpliv na ekonomijo;
- spoznajo in razumejo transportne stroške in kalkulacije v poslovanju;
- razumejo pomen poslovnega izida v kontekstu poslovne uspešnosti in učinkovitosti transportnega podjetja.

Objectives and competences:

The objectives of the course are:

- get to know and understand the importance of transport economics in logistics;
- understand the link between economics and transport;
- calculate the costs of transport routes in different transport systems;
- understand the basic indicators of business performance and efficiency of transport companies.

Competences acquired by students:

- get to know and understand the areas of transport economics;
- get to know and understand transport policy and the impact on the economy;
- get to know and understand transport costs and business calculations;
- understand the importance of profit or loss in the context of the business performance and efficiency of the transport company.

Predvideni študijski rezultati:

Znanje in razumevanje:

Študent bo ob zaključku predmeta zmožen:

- opredeliti in razumeti transportno ekonomiko;
- razumeti delovanje transportnega trga;
- izračunati transportne stroške in pripraviti kalkulacijo za posamezno vrsto transporta;
- določiti prodajno ceno transportne storitve na podlagi stroškovne analize;
- opredeliti osnovne kazalnice poslovne uspešnosti in učinkovitosti transportnega podjetja.

Prenesljive/ključne spretnosti in drugi atributi:

Študenti se usposobijo za uporabo in analizo teoretičnega znanja v praktičnih (poslovnih) primerih.

Intended learning outcomes:

Knowledge and understanding:

Upon completion of the course, the student will be able to:

- define and understand transport economics;
- understand the functioning of the transport market;
- calculate transport costs and prepare a calculation for each type of transport;
- determine the selling price of transport services based on cost analysis;
- identify basic business performance and efficiency indicators of the transport company.

Transferable/Key Skills and other attributes:

	Students learn to apply and analyse their theoretical knowledge to practical situations.
--	--

Metode poučevanja in učenja:

Predavanja: pri predavanjih študent spozna teoretične vsebine predmeta. Del predavanj se izvaja na klasični način v predavalnici, del pa v obliki e-predavanj (e-predavanja se lahko izvajajo na videokonferenčni način ali s pomočjo posebej v ta namen didaktično pripravljenih e-gradiv v virtualnem elektronskem učnem okolju).

Vaje: pri vajah študent utrdi teoretično znanje in spozna aplikativne možnosti. Del vaj se izvaja na klasični način v predavalnici, del pa v obliki e-vaj (e-vaje se lahko izvajajo na videokonferenčni način ali s pomočjo posebej v ta namen didaktično pripravljenih e-gradiv v virtualnem elektronskem učnem okolju).

Learning and teaching methods:

Lectures: students understand the theoretical frameworks of the course. Part of the lecture course is in a classroom while the rest is in the form of e-learning (e-lectures may be given via videoconferencing or with the help of specially designed e-material in a virtual electronic learning environment).

Tutorials: Students enhance their theoretical knowledge and are able to apply it. Part of the seminar is in a classroom while the rest is in the form of e-learning (e-tutorials may be given via videoconferencing or with the help of specially designed e-material in a virtual electronic learning environment).

Načini ocenjevanja:	Delež (v %) / Share (in %)	Assessment methods:
Opravljene obveznosti e-predavanj in e-vaj so pogoj za pristop k izpitu. ▪ Pisni izpit. ▪ Seminarska naloga z zagovorom pri vajah.	80% 20%	Successful completion of e-lectures and e-tutorials is a prerequisite for entering the exam. ▪ Written examination. ▪ Individual course papers.
